Dear Mr. Brower,

Thank you for presenting the Safety Means Abduction Registration and Training Program to our students. This is an important program for young children.

The students and faculty enjoyed the program. It had an important message for all the students. The students were often heard repeating the important three basic rules of personal safety. "Rudy the Red Fox" was an integral part of the presentation. The students were delighted to see him.

We support and appreciate your efforts in helping students understand and become aware of strategies to decrease the likelihood of possible abduction.

Congratulations on a job well done!

Sincerely,

Mary Anne Iritz
