Dear Mr. Fitzpatrick,

I am writing to express my appreciation for a job well done by Paul Brower and David Martin. On December 20, 2001, these two gentlemen entertained and educated my students in a manner I did not think possible. I was very impressed with how quickly Paul and David were able to capture the children's attention. Moreover they were able to hold their attention for the S. M. A. R. T. entire program.

The important message this program gave the students was well received and will be remembered for some time to come. I am pleased to report that on the morning my students returned from their Christmas break (15 days after the presentation), several students ran up to me and without my saying a word, recited the three rules Paul and Dave taught them.

In closing, perhaps the greatest compliment I can give these two men is to say, with all honesty, I hope my daughter can experience the S. M. A. R. T. program when she begins school in two years. My students, faculty and parents loved it!

Sincerely,

David St. Germain
