Dear Mr. Fitzpatrick,

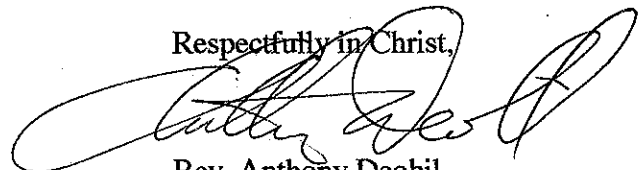

I just wanted to drop you a note of thanks and tell you what a blessing your video "Choosing To Lose - Life Inside" has been to us. We obtained a copy from C.O. Randy McAdam from Franklin Correctional Facility in Malone. We often deal with street kids in our youth group from the ages of 12 to 18. They often come full of attitude, a diverged view of the world and a sense of being invincible.

A few weeks ago we used your video with some strong Scriptures from the Bible about making right choices. Your film was the cornerstone of what happens in this world when we make wrong choices. I know several of the kids were jostled by what they heard and saw. It's impact was just what we needed and the kids still talk about it several weeks later. We hope to use it again in other programs we do as outreaches to the kids in the community.

I also got an additional copy of the video and sent it to a Pastor friend of mine in Macon, Georgia. He works with real street kids and is real excited about the video. The last time I worked with him we visited two crack houses, a house of prostitution and several local kids walked off the street checking out the pastor's center. He has been looking for something to counter balance the message on the streets and thought "Choosing To Lose - Life Inside" may just be what he needed.

Again, I just wanted to let you know how much your video was appreciated and how it was being used. I thank C.O. McAdam for his gracious offer to provide us with multiple copies and to you for producing such an insightful, high impact, functional video! Thanks again and have a great day!

Respectfully in Christ,

Rev. Anthony Deobil  
Administrative Associate
