

March 22, 2007

Dear Mr. Fitzpatrick,

My name is Thomas Blair and I am the health teacher at west middle school in auburn, ny.

A few weeks ago I had officer mike murray and his associates come into my health classes and present their program, "Choose To Lose." The program was very well done. Talking with students after the presentation many had a very different concept of what life in the corrections system was like.

The instructors were very well prepared and had the undivided attention of every student. When asked questions the instructors gave appropriate and honest answers.

In closing, this presentation every middle school student should attended.

Sincerely,

Thomas C. Blair
Health Teacher
West Middle Schoolc
