To Mr. Denny Fitzpatrick:

We have been very fortunate to have the Choosing to Lose program presented in our 8<sup>th</sup> grade classrooms. Each year, more than 250 students from our school are given valuable information about prison life and how important it is to make good decisions for themselves.

Our presenters, Officer Michael Countryman and Officer Tony Pagluighi, have been wonderful to work with. Their professionalism and knowledge is visible to all of us. They establish a good rapport with the students and are successful in answering questions and clearing up myths about prison life.

The Choosing to Lose program brings along such a valuable message. We support your efforts to reach out to these children and hope for the continuation of this program in the years to come.

Sincerely,

*Michelle Killenberger*
